

Unrepaired Leaks can be Costly

Water Loss in Gallons		Loss per Day	Loss per Month
●	120	3,600	
●	360	10,800	
●	693	20,790	
●	1,200	36,000	
●	1,920	37,600	
●	3,096	92,880	
●	4,296	128,980	
●	6,640	199,200	
●	6,984	200,520	
●	8,424	252,720	

Leaking Faucet (100 drips/min.) = 350 gallons/month

Leaking Toilet (1/2 gpm) = 21,600 gallons/month

Watering Garden or Lawn*

(2 hrs. @ 5 gpm) = 18,000 gallons/month

(2 hrs. @ 10 gpm) = 36,000 gallons/month

* (20-50% of water used lost to evaporation or run-off)

Unattended Water Hose

(9 hrs. @ 10 gpm) = 5,400 gallons

Typical Water Use

1 Bath	=	42 gallons
30 Baths	=	1,260 gallons
1 Shower	=	17 gallons
30 Showers	=	510 gallons
1 Laundry Load	=	45 gallons
20 Laundry Loads	=	900 gallons
1 Flush (toilet)	=	7 gallons
10 Flushes/day	=	2100 gallons/month

Water Saving Tips

- Plant drought-resistant native trees and plants. (Saves 750-1500 gal./mo.)
 - Run only full loads in the washing machine and dishwasher. (Saves 75-200 gal./week)
 - Keep a bottle in the refrigerator for drinking instead of running the tap for cold water. (Saves 200-300 gal./mo.)
 - Drive your car onto the lawn before washing it so rinse water can help water the grass.
 - Adjust your sprinklers so they don't water the sidewalk, driveway and street. (Saves 500 gal./mo.)
- Savings based on a family of two adults and one child.*
- Check toilet for leaks by dropping dye tablets or food coloring into the tank. If color appears in the bowl without flushing, there's a leak that should be repaired. (Saves 200 gal./mo.)
 - Shorten your shower. Even a one or two minute reduction can save up to 700 gal./mo.
 - Use low-flow shower heads or flow restrictors in regular shower heads. (Saves 500-800 gal./mo.)
 - Set lawn mower blades one notch higher since longer grass means less evaporation. (Saves 500-1500 gal./mo.)
